

PROGRESSIVE **EDGE** TECHNOLOGIES

Progressive Edge Technologies is a consulting firm specializing in providing clients with a variety of fire protection life safety consulting services from design and code review to onsite evaluation/inspections of fire life safety systems installation and testing during pre-construction and construction phases.

Marian Regional Medical Center
Santa Maria, California

Las Vegas Municipal Courthouse
Las Vegas, Nevada

We work with the local authority having jurisdiction to alleviate any issues pertaining to fire life safety issues through the entire construction phases. Perform onsite evaluation of fire sprinkler systems, fire alarm systems along with all life safety systems/smoke control systems, installation and testing during pre-construction and construction phases prior to final certificate of operation for new construction and or the retrofitting of existing facilities on projects ranging from commercial, telecommunication, and industrial facilities to high-rise buildings, mixed use complexes, health care facilities including OSHPD hospitals, and production processing facilities.
